Objective

An experienced Technical Writer with two years of hands-on experience in producing high quality and user-friendly technical documentation for a software product. I am looking for an opportunity to work with a dynamic team to contribute and enhance my skills as a Technical Writer specializing in different domains.

Academic qualification

- BE, Mech—2021, VTU
- PUC—2017

Path I tread as Technical Writer…

Currently, I am acquiring the following skills by liaising with some good Technical Writers in the industry and working as an Information Developer at Syndigo:

Syndigo – Information Developer (Feb 2022 – Present)

As an information developer:

- Worked with project teams to obtain in-depth understanding of the product and documentation requirements.
- Track new features and enhancements to keep the documentation up-to date in an Agile process.
- Create and update User guides, Configuration guides, API docs related to Syndigo MDM Platform.
- Create training modules: Training videos, instructional manuals, and quiz about various platform features.
- Create flowcharts, GIFs, and feature videos.
- Hands-on experience in using the Whatfix Digital Adoption Platform (DAP) to create product journeys for seamless product usage.

Key skills

- UI/UX Documentation
- Configuration Guides
- API and SDK Documentation
- Instructional Designing

Style guide

MSTP

Infographics

Reading technical concepts and creating infographics in MS-PPT and Visio

TCD tools

MS Office | MS Visio | MS Expression Encoder | Camtasia | SnagIt | Amazon Polly | Markdown | DITA | Doc360 | Git | GitHub | Whatfix | JIRA | Confluence

More in my learning basket

- Adopt industry-best practices (minimalistic writing)
- Adobe RoboHelp | Adobe FrameMaker
